

Distant Pals Conversation Starters:

Ideas for engaging students for their first technology meeting:

- Share a picture via Distance Technology:
 - Describe your picture.
 - When/where was it taken?
 - What were you doing?

- What should we talk about? Sometimes it can be challenging to think of topics to talk about with your new pal. Think of things you like, chances are your pal will like some of them too!! Here are a few other ideas:
 - What did you do over summer break?
 - What are you most looking forward to at school this year?
 - Books you have read or movies you have watched.
 - Places you have traveled to or visited.
 - Your favorite family memory.
 - If you could go anywhere, where would it be and why?
 - Your favorite superhero/cartoon/book character.
